Technical Information

Corrosion resistance

Meets the requirements of BS EN 1670:2007 Grade 5 (480 hours)

Material Specification

Stay Bar and Plates: High quality Zinc for all finishes

Coatings: Hardex Chrome, Satin, Bronze, Gold, Antique Black, White and Black.

Maintenance

For continued protection of the quality finish and appearance, Fab&Fix advise routine cleaning of all our external hardware. Moving parts should also be lightly lubricated at least twice a year. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.

Packaging

Stay Bars

Individually bagged with screws and care instructions.

40 stay bars in an outer box.

Stay

0° Peg Plate

9° Peg Plate

Screws x 4

All dimensions are in mm and are nominal.

Fab&Fix reserves the right to change specification without notice. It is the responsibility of the window manufacturer to ensure that the finished product meets any required safety and performance specification.
