Maintenance

The pivot point should be lightly lubricated twice a year and the surface cleaned with a soft cloth to remove any dust or grime. The product should be periodically adjusted and the fixings tightened to ensure a satisfactory operation

Packaging

Latches:
1 per bag, 10 per box.

All dimensions are in mm. Brackets are 3" version.
ERA reserves the right to change specification without notice.
It is the responsibility of the window manufacturer to ensure that the finished product meets any required safety and performance specification
